Directions to MRI of America

From I-25: Take the Arapahoe Road exit (#197). Travel east approximately 2 miles. Turn right onto Revere Parkway. Make a left into the parking lot. MRI of America is in the corner building to the left. Suite 100.

**The MRI of America
 ADVANTAGE...**

Aside from offering unparalleled comfort, we have the ability to scan patients in multiple positions. This capability allows for more accurate imaging by scanning patients in weight-bearing or positions of symptoms. Most patients that experience low back pain do not have pain while lying down. Our MRI greatly enhances our ability to find the cause of the pain by sitting, standing or bending.

WATCH TV!

This exciting technology allows the patient to complete their examination while watching TV in a standing or seated position. Our MRI revolutionizes patient comfort.

Preparing for your MRI

You and your physician should send related previous films to MRI of America prior to the day of your exam. These films will assist the radiologist in the interpretation of your exam. Please advise us if you checked any of the items to the right.

Unless specified by your physician, there is no special diet or fasting necessary.

When you arrive for your appointment, you will be greeted by a receptionist who will assist with any billing or insurance questions. We will ask for your medical history, and we will explain the MRI process at that time. You will be required to read and sign specific MRI forms prior to your procedure. The technologist will review your paperwork and then begin your examination.

Advise us PRIOR to your appointment if you have any of the following:

- Aneurysm Clips, Rods, Screws or Metal Plates
- Artificial Cardiac Valves
- Bone or Joint Replacement
- Metal Fragments
- Pregnancy or Nursing
- Previous Surgery (Brain, Eye, Ear)
- Hearing Aids
- Body Piercing / Tattoos
- Dentures (Must remove)
- Wire Mesh Stents / Coils
- Any implanted medical devices
- Pacemakers
- Other embedded metallic objects or concerns _____
